

MINI TABLET TRIPOD MOUNT USER'S MANUAL

Thank you for purchasing the new Mini Tablet Tripod Mount. This product supports 7" tablets or similar flat devices weighing up to one pound in both the vertical and horizontal positions. When used together with a tripod such as Jelly Long Legs (sold separately), users can take full advantage of the remarkable photography capabilities offered by the iPad Mini and other tablets. With the Mini Tablet Tripod Mount now even long-exposure, nighttime photos are easy to master.

Set up is a snap

- After removing the Mini Tablet Tripod Mount from the package, loosen the rear knob and rotate the arm 180 degrees making certain that the arm is fully pulled to the end of its slot to take photos in landscape mode. Tighten the knob. To take photos in portrait mode, slide rear knob to center after rotation. Tighten the knob.

• Locate your tripod on level ground and ensure that it is completely stable. Then attach the Mini Tablet Tripod Mount to the screw mount of your tripod.

- While gently pulling the claws in opposite directions, insert your tablet— with or without a case— and then release claws letting them snap into place to form a secure grip. Your tablet can be rotated into any position by loosening and then tightening the rear knob.

Use common sense

- Do not carry the tripod with your device installed. When you move the tripod, remove the device.
- This product is designed to hold a device steady on a tripod while taking a picture. It is not designed to be mounted to a moving object or vehicle.
- This product contains small parts that may be a choking hazard. Keep out of reach of children.
